

Station 3

Wick & Wabber

Activity 1 Worksheet- 20/20 Global Challenge
Topic: Biodiversity and Ecosystem Losses

Scavenger Hunt

Directions: We will be making observations of a local ecosystem. Each group will have a clipboard, pencil and Activity 1 Worksheet. Each group will decide on one person to be the data recorder. Your group must answer the following questions in the spaces below.

1. Describe the site or habitat. Be as descriptive as possible on what you see.

Marshy, Cool climate because of breeze,
some human waste, walkway, buildings,
plough mud

2. What animals do you see? List all that you observe on land and in the water.

Hermit crabs, tadpoles, jellyfish, ~~falcon~~ or red-tailed hawk, storks, blue heron,
minnows, snails, crabs, blue crabs, oysters

2. Describe the habitat component. What do you see might be sources or places for organisms to find -

Food - snails

Water - dark

Cover or Shelter - wet's way

Place to raise young - grasses
