

Activity 1 Worksheet- 20/20 Global Challenge
Topic: Biodiversity and Ecosystem Losses

Izzy + Ashley M

Scavenger Hunt

Directions: We will be making observations of a local ecosystem. Each group will have a clipboard, pencil and Activity 1 Worksheet. Each group will decide on one person to be the data recorder. Your group must answer the following questions in the spaces below.

1. Describe the site or habitat. Be as descriptive as possible on what you see.

pluff mud, Marsh, water, wood, metal, oil bottle,
fitter crabs, glass, net, rocks, shells,
seaweed slim, paper towels, cup, doll, snails,
beer bottles, vase, cans, oysters, bucket, cigarette net

2. What animals do you see? List all that you observe on land and in the water.

fitter crabs, tadpoles, Alys, dog, Haron, Kingfisher
mino, fish, Red tailed hawk, snail, pelicans

2. Describe the habitat component. What do you see might be sources or places for organisms to find -

Food

Fish, Slim, snails, oyster, clams

Water

water, streams

Cover or Shelter

under mud, under docks, marsh

Place to raise young

marsh, dock, water
